Bob/Craig:

In case you didn't get this proposed schedule forwarded from consultants already. I will definitely plan to attend the public meeting, and expect I'll see you there. If so, maybe we can set aside some time before or after to discuss activities after the action memo is finally signed.

Cliff Villa
Assistant Regional Counsel
U.S. EPA Region 10

Subject TENTATIVE Wallace Yard Public Notice period

Nick,

Renee and I talked about moving forward with WY even though you weren't able to join us. We figured out a tentative schedule and do items for the Wallace Yard EE/CA Public Notice period and need your input. Here is what we've come up with:

- Public Review Period: Oct 8 - Nov. 23.
This would allow people that missed announcements a chance to review the document. we could provide a brief verbal announcement at the Nov. 14 BC meeting.
- Renee will final the press announcement and get to the newspapers so they run the first week of October.
- Nick do you have other suggestions for how to advertise?
- Renee plans to use the EPA and IDEQ logo on the announcement, fact sheet, post card. She's going to ask if you have any heartburn with that.
- Daryl- do the RRs want their logo on these notices? ==> it's a great PR op.
- Public meeting date Thursday Nov. 1 (Tentative)
- Daryl- We'd like to have the RR's participate at these meetings. ==> PR op.
- Brandon/Aaron note these dates for deliverables and production.

Let's finalize this plan and figure out what we need to do to be a reality.
